

21 April 1966

MEMORANDUM FOR THE RECORD

Morning Meeting of 21 April 1966

R. Jack Smith reported on a meeting at State recently in which the question of U.S. trade with Communist China was discussed. The Agency has been asked to prepare a memorandum covering various aspects, pro and con, of U.S. trade with the mainland.

Godfrey noted the volume of cable traffic on the NATO discussions and said that a report will be issued every few days which will boil down this voluminous traffic flow. He noted that, contrary to his report yesterday morning, the South Africans are taking a hard line with the British and probably will continue to supply oil to the Rhodesians.

25X1

[] gave a preliminary report on a new SAM site in Southwest China which had been discovered.

25X1

Bannerman initiated a discussion of the proposed statement which [] would provide if there were press inquiries as to the Lab's relations with the Agency. The DCI instructed that the phrase, "in the national interest", be inserted in the statement. The Executive Director noted that a report [] of the Agency's relations with various universities was being prepared for the DCI.
